Summary of reasons for decision:

The publication is a short computer moving image file which depicts strongly degrading, dehumanising and demeaning sexual conduct, with overt cruelty and racist overtones. The publication encourages the viewer to become sexually aroused from watching a spectacle of a woman being degraded, dehumanised and demeaned to a very high degree by two men. She is treated as inherently inferior by reason of her race and her gender. The availability of the publication is likely to be injurious to the public good regardless of the age or level of maturity of its viewers. The publication is classified as objectionable.

The classification of this publication interferes with the freedom of expression. However, given the nature of the material, this decision is reasonable, demonstrably justified and represents the minimum interference with the freedom of expression consistent with preventing likely injury to the public good.
